# Welcome

Everyone has the capacity to enjoy and make music. Every culture in the world includes music in some form for celebration, ceremony, communication, relaxing and enjoyment. The world would be inconceivable without music and it is hard to imagine the absence of music in our lives. Because of this all children should have music as the core component of their educational experience not only because it brings joy and satisfaction: but it fosters creative expression, challenges thinking, stimulates imagination and contributes to intellectual growth. We look forward to having you celebrate with us the magic of music as we enjoy a 30-year friendship with two engaging performers – Greg & Steve.
